

PILOTA FOR ONE DAY

RACE VEHICLES

For the training program, three different kinds of race vehicles will be used with the following characteristics:

- Handling
- Reasonable performance
- Affordable running cost
- Availability in China

Go kart 125 cc

Go Kart is the starting point of all professional race drivers. Although many see it as a toy, karting is physically very demanding and let drivers better understand the vehicle dynamics. It is also easy to practice and nearly always available throughout the year

VW Scirocco (Touring car)

With the possibility to use the double seat, touring car offer a wide range of coaching methods such as “one on one”. Touring car is the easiest way to practice motor sport on track. It is easily accessible, easily drivable for the less experienced, affordable costs, and fun to drive.

Formula Renault

2l engine, 200 hp, 480 kg are the main parameters of what is considered the best junior formula ever produced. It is deal for anyone who wants to approach motor sport, thanks to the high performance, good handling and reasonable running cost. Formula car is the base of all the professional drivers in every motor sport series due to the high power to weigh ratio, rear wheel drive, rear engine that delivers the best package for learning and practicing motor sport.

一天赛道体验

车款说明

一天赛道体验使用的车款，需具备以下条件：

- 良好操作能力
- 足够的动力
- 合理的成本
- 可在中国提供

125cc卡丁车

卡丁车是所有专业赛车手的起点，尽管有很多人把它视为一种玩具，但卡丁车从本身而言就是一项对体力要求非常高的运动，并能让车手对赛车的动力学有更深入的了解。它操作简单，基本上全年都能练习。

大众尚酷(房车)

由于有两个座位，房车给予学员更多的训练选择，如“一对一练习”，房车驾驶是在赛道上练习汽车运动的最简单方式，易理解、易驾驶、价格实惠，寓教于乐。

雷诺方程式

两升的引擎，200匹的马力，车重480公斤的初级方程式，鉴于其高水准的表现，良好的操控性以及合理的费用，雷诺方程式2.0是世界公认的单座方程式入门首选车款。由于其高功率/重量、后轮驱动、后置发动机都给予学习和练习汽车运动最好的选择。
